

XeneX SOCaaS

With over 12 years of experience and focus on Security Operations Center as a Service (SOCaaS), XeneX delivers a unique cybersecurity solution and unparalleled 7/24/365 SOC experience.

XeneX's software development team continues to extend the capabilities of XeneX platform. A leading industry platform, XeneX integrates several cybersecurity tools to achieve a single pane of glass of cybersecurity for the enterprise.

XeneX security analysts receive extensive training on the XeneX platform and must complete certification before joining the SOC team.

XeneX Compliance Module

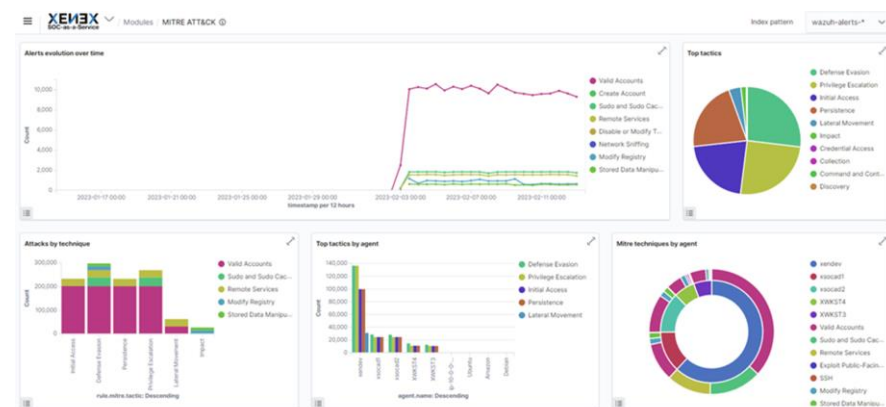

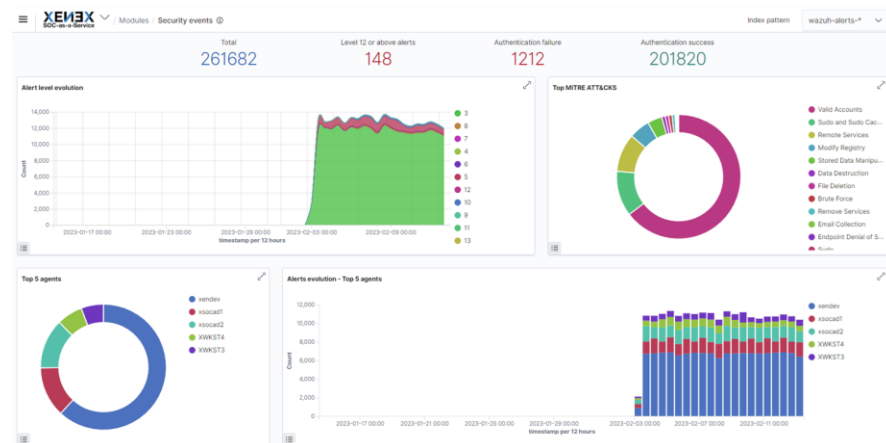

Highlights

- Full Mapping to **MITRE ATT&CK Framework**
- Payment Card Industry Data Security Standard (**PCI DSS**)
- Health Insurance Portability and Accountability Act (**HIPAA**)
- General Data Protection Regulation (**GDPR**)
- NIST Special Publication 800-53 (**NIST 800-53**)
- Good Practice Guide 13 (**GPG13**)
- **Comprehensive:**
IT Controls +
Administrative Controls +
Physical Controls

XeneX uses its SIEM capabilities to centralize, analyze and enrich security data. In addition, it provides security controls, such as intrusion detection, configuration assessment, log analysis, and vulnerability detection, to meet the technical aspects of regulatory compliance standards.

The XeneX rules are carefully mapped against compliance requirements to provide regulatory compliance support. When an alert is generated (a threat detection rule condition has been matched), it automatically includes compliance information. XeneX captures the events, creates detection rules, and generates alerts on the XeneX dashboard.

XeneX platform compliance module together with XeneX professional services meets the complete compliance requirements including technical, administrative, and physical controls.

Our Vision

Continuously invest in technology, people and process improvements to deliver the most comprehensive cybersecurity technology platform and world-class white glove service for incident management. To be the leading SOCaaS, protecting our partners and customers, and helping them achieve their cybersecurity goals.
